

Breeding Terms for Cedarlake Labradors

Stud fee Within the USA: There are two options for payment of the stud fee.

Option 1. \$1800.00 with a \$400 service fee due at the time of breeding and the balance of \$1400 due immediately after the puppies are born.

Option 2. \$1700.00 stud fee due at the time of breeding.

Payment: Payment may be made by via PayPal or personal check made out to Anne Thornbury. There is a 3% service fee when using PayPal. Venmo may be used at no additional cost.

Frozen semen is available for export. Please email for more information, athornbury01@gmail.com.

Repeat Breedings

A litter shall be considered a litter if at least **two live puppies** are whelped. If the bitch fails to produce a litter a repeat breeding will be given. A **service fee of \$200.00** is due for a repeat breeding if **Option 1** was chosen for the initial breeding. The bitch owner must pay for the shipping, extender, boxes, etc. again at the price of \$120 for two complete boxes regardless of which option they originally chose.

If the original bitch is no longer available to fulfill the breeding contract another bitch may be substituted. The repeat breeding option is available for up to 2 years past the original breeding date.

There will be NO refunds of stud fees.

Fresh chilled shipments

Two shipping boxes/kits and extender will be provided by Cedarlake Labradors for **\$120.00 (for 2)**. **The cost of the boxes and the shipping of boxes/extender to you for the breeding are in addition to the stud fee.**

The extender provided by Cedarlake Labradors will be the PurePup extender. This is the extender that works best for our dogs. These are the only boxes and extender that will be used, no substitutions.

A FedEx account number or a credit card will be required before the breeding for the shipping charges.

The owner of the bitch will be responsible for all expenses pertaining to shipping dogs or chilled/frozen semen. These expenses include but are not limited to FedEx Charges, Airline Counter to Counter charges, and shuttle services to the airport. These expenses are due at the time of the breeding.

All bitches being bred to Cedarlake stud dogs are required to have progesterone testing done prior to breeding to determine the time of ovulation and the optimal time for shipping of semen and breeding.

After a litter is whelped the bitch owner/breeder will send a completed Online AKC Litter Registration Form to Cedarlake Labradors for the signature of the owner of sire portion of the form. We will then forward the forms onto the AKC.

A copy of the bitch pedigree and all clearances are required before the breeding. This can be emailed to us at athornbury01@gmail.com
I agree to the terms as stated above.

Bitch owner: _____
